

To: All Country Club Estates Residents,  
From: Country Club Estates Community Association (CCECA) Board  
Objective: Solicitation of ideas and thoughts for what your Country Club Estates Community Association should be focusing on for your community of "Country Club Estates"

As part of the business of the Association, we are collecting thoughts and ideas to which your community association should concentrate its efforts and resources. Below are a few categories for you to consider and categorize your thoughts and ideas under. However, feel free to add your own categories and thoughts as desired. It is important for the association to know what the community is thinking about and also what you think is needed. All ideas of any sort are welcome. Please think of this on a community basis or a special sub section of the community. You are encouraged to pass this around to anyone in Country Club Estates so they may contribute to this project.

On all the submissions, we would prefer you include your Name, Phone Number, and Address. This will be used for additional input should that be necessary. We will still accept submissions without this but if clarification is needed and we can not contact you your ideas may be moved to the bottom of the list. Your contact information is for our internal use only.

We will compile a list of all ideas through June 1<sup>st</sup>, 2011 so please submit your ideas soon. At that time, we will review the ideas and see what is most beneficial to the community and feasible to accomplish with the association resources available. After review and analysis, we will post the results in the clubber.
